- Member Engagement
- Geographic expansion

County Health Profile Report:

Summarizes relevant social and clinical data for Yolo County from Partnership and other state and national sources. The Report helps to identify important trends and compare metrics for Yolo County with other counties in the Partnership region. The Report highlights the unique strengths and challenges of each Partnership County.

Yolo County Highlights

- New Kaiser direct contract with State and redetermination may decrease enrollment by 28%
- Almost three-quarters of members indicate English as their preferred language.
- Achieved high QIP scores in 2022, all measures above the State minimum performance level
- Primary care visit and ED rates favorable to Plan average
- Over one-third of specialty visits via telehealth
- Primary care provider vacancy ~ 15%

Yolo County Enrollment Factors Impacting Enrollment

Redetermination:

County Social Services Departments will begin sending re-enrollment packets to Medi-Cal members, based on the month of their effective date of coverage. **Remind members to:**

- Update their address with county social services. DHCS website: <https://www.dhcs.ca.gov/Pages/Keep-Your-Medi-Cal.aspx>
- Watch for the packet in mail, complete and send back
- Contact your county social services office or local clinic for assistance.

Direct Kaiser Contract with the State:

In Jan of 2024, Partnership members assigned to Kaiser will be moved to a direct contract between Kaiser and the State. They will no longer be Partnership members

Yolo County Enrolled Members

(Planwide Members 680,834)

Medi-Cal Redetermination process and the direct contract with Kaiser is *estimated* to reduce enrollment in Yolo County by ~28% over the next 18 months. Please note: this estimate is subject to change by multiple factors

Yolo County Member Ethnicity & Preferred Language

Member Ethnicity

■ Hispanic ■ White ■ Black ■ Other

Preferred Language

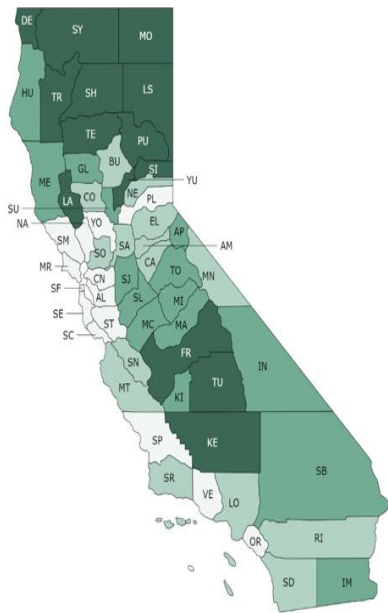

■ English ■ Spanish ■ Russian ■ Other

42% of Yolo County members are of Hispanic ethnicity, 21% White and 4% Black. 73% indicate English is their preferred language, followed by 21% Spanish and 3% Russian. *Please note large ethnic group categorized as "other" impacts these statistics.*

County Health Ranking & Metrics

2023 Health Outcomes - California

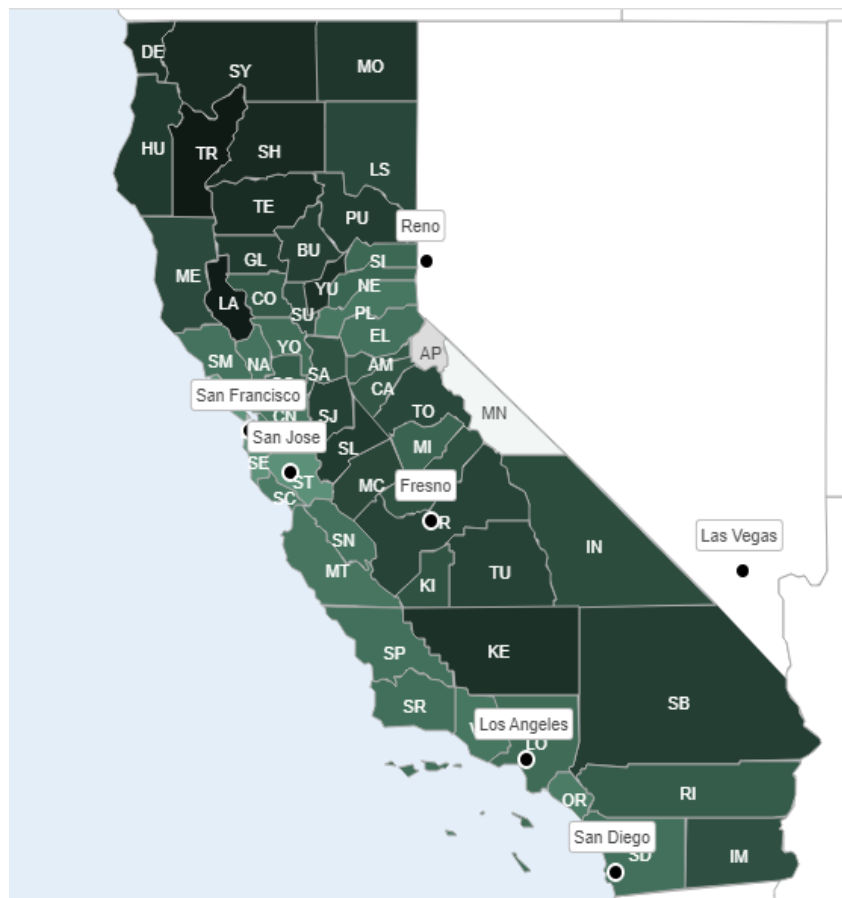

Health Outcome Ranks 1 to 14 15 to 29 30 to 44 45 to 58

Health Measure	Solano	Napa	Yolo	State
County Rank	23	5	11	NA
Life Expectancy (yrs)	80	82.1	81.4	81.0
Drug Overdose Deaths/100,000	18	13	12	17
Adult Smoking	12%	11%	12%	9%
Child Mortality (<18 yrs)/100,000	40	30	30	40
High School Completion	89%	85%	88%	84%
Teen Births/1000 Births	15	10	7	16

Social and economic factors dramatically impact overall health in our communities. Just within the Southeast Region there are big differences in life expectancy, death rates and other risk behaviors

Life Expectancy in Yolo County Disaggregation by Race

Average Life Expectancy in Yolo County is 81.4 years (*State, 81.0 yrs., US 78.5 yrs.*)

Life Expectancy by Race for Yolo County

Disaggregation

Disaggregated by Race	Value	Error Margin
Life Expectancy	81.4	81.0-81.8
Asian	89.1	87.1-91.0
Black	78.3	75.1-81.4
Hispanic	82.7	81.6-83.7
White	80.5	80.1-81.0

Years of data used to calculate rates: 2018 – 2020

Regional View of Quality

2022 QIP Results

Regional Scores: Partnership reports quality data to the State by region rather than by individual county. Individual county scores roll into the average for the region. The overall goal is for each county to score above the minimum performance level, typically the 50th percentile for all Medicaid managed care plans nationally.

Clinical Measures Below the State Minimum Performance Level By County*

Early Childhood Immunizations (CIS 10) Yolo County

An analysis of Partnership HealthPlan 2022 HEDIS results for childhood immunization shows the percent of children completing the ten required categories of vaccines or vaccine families. To successfully complete the CIS 10 measure, all ten vaccine families must be administered, equaling 23 – 24 individual vaccines.

**Percent of Children Completing 0 through 10 of the
Required Vaccine Families for CIS -10**

Vaccine Family	Number in Series
Hep B	3
Rotovirus	2-3
DTaP	4
Hib	3
PCV	4
IPV	3
Influenza	2
MMR	1
Varicella	1
Hep A	1
Total Required	23 -24

In Yolo County, 33% of eligible children completed all ten required vaccine families. Another 28% completed nine of the ten required (most often missing influenza). 7% of children completed no immunizations (unwilling or out of area).

Immunizations for Adolescents

Planwide Trends

An analysis of 2022 HEDIS results for adolescent immunizations shows the percent of youth completing all four immunizations. To successfully complete the Adolescent Immunization series, youth must have 1. Tdap, 1 Meningococcal, and 2 HPV immunizations by their 13th birthday. Total Partnership members eligible for this measure is 64,910.

Percent of Eligible Youth Completing Vaccine Type and Total Compliant

85% of eligible children have had Tdap (required for entry into 7th grade), 75% have received meningococcal, 42% HPV and 39% have received all three.

HPV vaccination rate by sex

Of the 42% of youth receiving the HPV vaccine, the number was equally divided between females and males.

Blood Lead Screening State Data 2020

Figure 1. Percent of Children Under 6 Years Old with a Blood Lead Level of 4.5 µg/dL or Greater, by California Local Health Jurisdiction, 2020

Data from RASSCLE surveillance database archive of 7/30/2021

California Counties: Percent Children <6 yrs with Blood Lead Level of 4.5 µg/dl or higher, 2020

County	# Tested	Percent > 4.5 µg/dl
Humboldt	1,703	4.35%
Marin	1,445	0.76%
Mendocino	1,002	1.70%
Napa	786	0.64%
Shasta	420	0.95%
Solano	3,588	1.84%
Sonoma	1,596	0.87%
Yolo	1,674	2.09%
Statewide*	336,386	1.21%

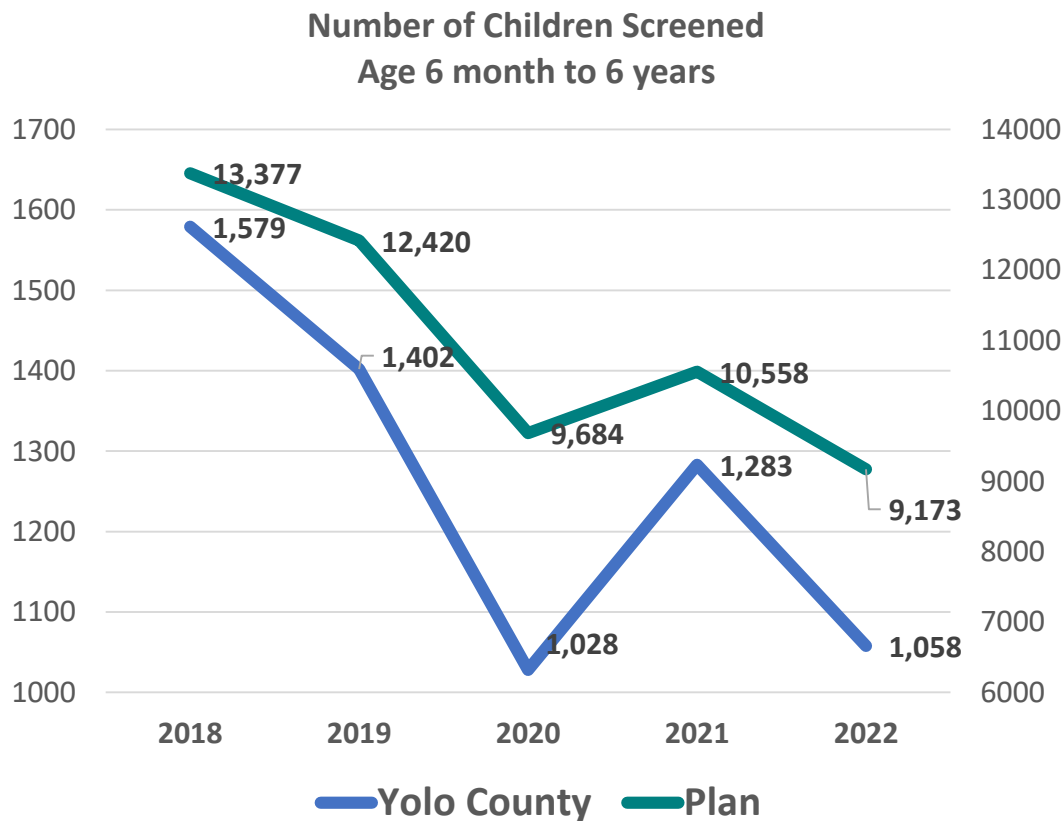

*Statewide 0.25% of children <6 yrs have Blood Lead Level ≥ than 9.5 µg/dl

All counties have a small percentage of children with high blood lead levels, a few counties are well above the Statewide average.

Point of Service Testing

Clinicians

Point-of-care lead testing means everybody wins.
3 minutes. 2 drops of blood. 1 visit. Zero loose ends.

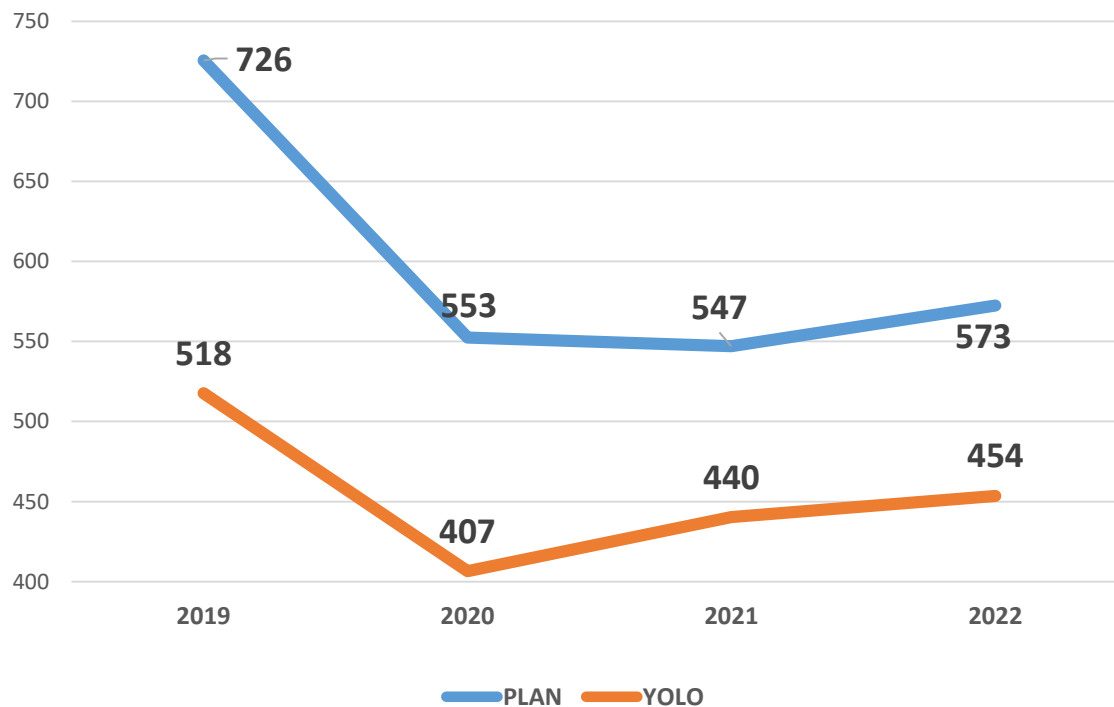

LeadCare® II is the only CLIA-waived, point-of-care lead testing system that makes it possible to test, educate and intervene on-the-spot, in one visit. No need to send patients to an outside lab. No need to re-test due to sample problems at the lab. No risk of losing track of a child who needs treatment.

The annual number of children screened in Yolo County and Planwide is still below pre-pandemic levels

Yolo County

ED Use– Four Year Trend

Yolo County ED Visits Vs Planwide
Per 1000 Members/Year

ED Visits/1000 Mbrs/Year in
2022 - Plan Average: 573

ED Visits PMPY x1000

Yolo County ED visit rates are consistently well-below the Planwide average and remain below pre-pandemic levels. Yolo has the lowest ED use rate in the Plan.

Hospital Use Rates Yolo County

Yolo County hospital length of stay is lower than Plan average. The rate of inpatient admissions is declining.

Yolo County Primary Care Visit Rate

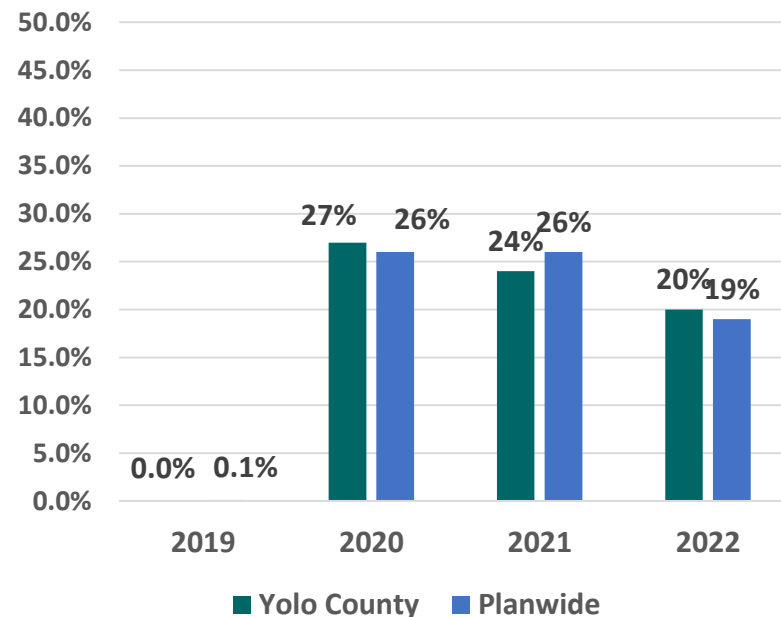

Primary Care Visits/Member/Year

Five Year Trend

Percent Telehealth

Four Year Trend

Primary care visits per member per year in Yolo County are consistently above the Planwide average (with the exception of 2020). In 2022, 20% of total primary care visits were provided through telehealth (video or phone) compared to 19% Planwide.

Yolo County Specialty Visit Rates

**Percent Specialty Visits Provided by Telehealth
Six Year Trend**

Specialty	Percent Visits by Telehealth
Planwide CY 2022	
Psychiatry	55%
Endocrine	44%
Rheumatology	30%
Neurology	26%
Infectious Disease	18%
Pulmonary Medicine	15%
Urology	9%
Dermatology	4%

The provision of specialty care via telehealth remains a major tool to improve access. Approximately a third of specialty visits in Yolo County are provided by telehealth.

Behavioral Health Use (All Ages) Yolo County

Percent of Total Members Using Behavioral Health Services

Yolo County Utilization Data for 2022

Provider Type	Visits 2022	Ave. Visits per Member
Therapy Services	29,391	11.0
Medical Management	7,033	5.3
Other	10,486	9.1

Provider Satisfaction

Partnership HealthPlan of California

At-A-Glance 2022 Physician/Specialist Satisfaction Results

SPH Analytics conducted the physician/specialist satisfaction study via a multi-mode survey approach, allowing respondents to complete the survey via mail or web.

Courtesy telephone calls were made to encourage participation via mail or web.

A total of 401 physician/specialist surveys were completed from April 1 – June 17, 2022.

	Total			Primary Care Physicians (PCPs)			Specialists (SPCs)		
	Total (A)	Southern (B)	Northern (C)	Total (D)	Southern (E)	Northern (F)	Total (G)	Southern (H)	Northern (I)

Workforce Point in Time Survey (January 2023)

Partnership HealthPlan staff conducted a survey of primary care organizations across the 14 county region. The results shown below indicate the current primary care provider vacancies weighted by available positions per county. The plan wide vacancy rate is 24.5%, representing 296 clinician vacancies (~200 physicians and 100 NP/PA positions)

All primary care practices are challenged by workforce shortages impacting access to care, quality, workforce burnout, retention and more. Primary care shortages range from a low of 15% to high of 38%. The Partnership plan wide average is 24%.

Workforce Promising Practices

1. Partnership Workforce Recruitment & Retention program
2. Retention strategies to maintain current staff
3. Flexible hours to promote work/life balance
4. NP/PA Fellowship programs
5. Close working relationship with residency training programs
6. Use of primary care telehealth (remote providers)
7. Expanding statewide health training capacity (State strategy)
8. Assistance with housing

Potential 10 County Geographic Expansion

Jan 2024

Serving the North State

Partnership's planned geographic expansion will add 10 new counties to the network, for a combined network of 24 counties.

Partnership as their preferred partner: All ten counties passed ordinances electing Partnership HealthPlan as their preferred partner for managed Medi-Cal. Many of the reasons cited include local presence, responsiveness and aligned values.

New Members: The ten counties will add approximately 274,000

New Structure: Partnership plans to reallocate Commissioners to accommodate the new counties. Plans also include one or two new regional offices.

New expansion counties:

- Butte
- Colusa
- Glenn
- Nevada
- Placer
- Plumas
- Sierra
- Sutter
- Tehama
- Sierra

Yolo County Health Profile

The County Health Profiles provide information from both State and Partnership HealthPlan data sources.
