Number and Street Name (No P.O. Boxes)	*City and State*	*Zip Code*
Attn To:		

SECTION 3: PROVIDER INFORMATION

General Guidelines:

- Members must go through their PCP for instructions on how to use the equipment.
- If the patient has questions, please explain how to use the device properly. PHC will send basic written instructions with the item, when delivered by mail.
- If the PCP suspects an equipment malfunction of any sort, the PCP will reach out directly to PHC by sending an email to request@partnershiphp.org. PHC will work to resolve the issue. *The patient should not reach out directly to PHC; they should first work with their PCP.*
- Set expectations on how often the patient should use the device to measure current status, how to interpret the numbers (i.e. when to call for urgent advice or go to the emergency room).
- Establish regular virtual check-ins (preferably by video) with the patient to evaluate their clinical status, the data they are collecting, and to ensure proper use of the device. The exact frequency and content of such visits would be determined based on the individual clinical scenario.

☐ ***I acknowledge that I have read and understand the above guidelines.***
