

HEDIS Reporting Year 2022 (RY2022) Health Plan Accreditation (HPA) Hybrid Reporting Measures

Measurement Year 2021

- **HEDIS® Hybrid Measure:** Data collected from both Administrative sources (claims, lab data, etc.) and abstracted from patient medical charts (paper and EMR).
- **HPA Measure:** Uses HEDIS data to effectively measure the health plan's care and service performance.

The following measures are applicable to Hybrid Accreditation Reporting:

HEDIS Measure	Measure Description	Medical Record Documentation Typically Requested
<p>CBP: Controlling High Blood Pressure</p>	<p>Percentage of members 18-85 years of age who had a diagnosis of hypertension (HTN) and whose BP was adequately controlled (<140/90mm Hg) during the measurement year.</p>	<ul style="list-style-type: none"> • 2021 Progress / Office visit notes/including Specialist (i.e., Cardiologist, Nephrologist) • 2021 notes from telephone visits, e-visits, (i.e. secure text messaging or email, patient portal), real-time interactive audio and video visits. • Updated Problem List, Medical History • Medication List • 2021 Vital Sign Flow Sheet • Evidence of pregnancy during 2021 • Evidence of end-stage renal disease dialysis, or renal transplant • Hospital discharge notes

HEDIS Reporting Year 2022 (RY2022) Health Plan Accreditation (HPA) Hybrid Reporting Measures

HEDIS Measure	Measure Description	Medical Record Documentation Typically Requested
<p>CCS: Cervical Cancer Screening</p>	<p>Percentage of women 21-64 years of age (as of December 31 of the measurement year) who were screened for cervical cancer:</p> <ul style="list-style-type: none"> • 21-64 years: Cervical Cytology within the last 3 years • 30-64 years: Cervical high-risk human papillomavirus (hrHPV) testing within the last 5 years • 30-64 years: Cervical Cytology with hrHPV co-testing within the last 5 years <ul style="list-style-type: none"> • For hrHPV, <i>minimal age at the date of testing – 30 years of age.</i> 	<ul style="list-style-type: none"> • 2017 – 2021 Cytology Reports (Pap and hr HPV / HPV tests date and results) • 2017 – 2021 OB/GYN Consults • 2017 – 2021 Progress / Office Visit notes • Preventive health screening form with Pap and hrHPV / HPV tests date and results • Updated Problem Lists / Medical History • Name of patient’s OB/GYN Provider • Surgical history, include pathology reports for hysterectomy • History of Total/Complete/Radical hysterectomy on or prior to 12/31/2021

HEDIS Reporting Year 2022 (RY2022) Health Plan Accreditation (HPA) Hybrid Reporting Measures

HEDIS Measure	Measure Description	Medical Record Documentation Typically Requested
<p>CDC: Comprehensive Diabetes Care:</p> <p><u>(Indicators):</u></p> <ul style="list-style-type: none"> HbA1c Poor Control (>9.0 %) HbA1c Control (<8.0%) BP Control <140/90 Eye Exam 	<p>Percentage of members 18-75 years of age with diabetes (type 1 and 2) who had the following indicators:</p> <ul style="list-style-type: none"> HbA1c Poor Control (>9.0%) HbA1c Control (<8.0%) BP Control <140/90 Eye Exam (retinal) 	<ul style="list-style-type: none"> 2020 - 2021 Progress / Office Visit notes 2021 Flow Sheets – Vital Signs / Diabetic / Labs 2021 HbA1c labs test dates and results 2021 notes from telephone visits, e-visits (i.e. secure text messaging or email, patient portal), real-time interactive audio and video visits Updated Problem Lists / Medical History Medication List Evidence of a retinal or dilated eye exam by an optometrist or ophthalmologist during 2021 or a negative retinal eye exam in 2020 2021 Consultations or referrals to specialists (i.e., endocrinologist, [2020 – 2021 ophthalmologist, optometrist]) Evidence the member did not have a diagnosis of diabetes and had polycystic ovarian syndrome, gestational diabetes or steroid induced diabetes diagnosed during 2020 or 2021

HEDIS Reporting Year 2022 (RY2022) Health Plan Accreditation (HPA) Hybrid Reporting Measures

HEDIS Measure	Measure Description	Medical Record Documentation Typically Requested
CIS-10: Childhood Immunization Status: Combination 10	Percentage of children 2 years of age who receive a series of vaccines (# of injections) by their second birthday: <ul style="list-style-type: none"> • DTaP: 4 • Hep B: 3 • PCV: 4 • VZV: 1 • IPV: 3 • HiB: 3 • MMR: 1 • Hep A: 1 • Flu: 2 • RV: 2 or 3 	<ul style="list-style-type: none"> • All immunization records (IZ grids, CAIR, other registries) • Birth – 2021 Progress / Office Visit notes • CHDP forms • Hospital birth record (includes IZ given at birth) • Birth – 2021 Day Care Exams • Evidence of contraindication for the vaccine • Evidence of the illness or seropositive test for MMR, Hepatitis B, VZV (chicken pox), Hepatitis A • Evidence of parental refusal • Evidence LAIV (influenza) vaccination occurred on the child's second birthday
IMA-2 Immunization for Adolescents— Combination 2	Percentage of adolescents 13 years of age during the measurement year who had the following: <ul style="list-style-type: none"> • 1 Meningococcal vaccine (MCV) injection between 11-13 years old • 1 Tetanus, diphtheria toxoids and acellular pertussis vaccine (Tdap/Td) between 10-13 years old • 2 or 3 HPV vaccines between 9-13 years old 	<ul style="list-style-type: none"> • All immunization records (IZ grids, CAIR, other registries) • 2017-2021 Progress / Office Visit notes • CHDP forms • Sports physical notes • Evidence of contraindication for the vaccine • Evidence of parental refusal • Evidence for 2 dose HPV vaccine at least 146 days between the first and second dose

HEDIS Reporting Year 2022 (RY2022) Health Plan Accreditation (HPA) Hybrid Reporting Measures

HEDIS Measure	Measure Description	Medical Record Documentation Typically Requested
<p>PPC: Prenatal & Postpartum Care (2 indicators):</p> <ul style="list-style-type: none"> • Timeliness of Prenatal Care • Postpartum Care 	<p>Percentage of deliveries of live births on or between October 8, 2020 and October 7, 2021. The measure assesses the following:</p> <ul style="list-style-type: none"> • Timeliness of Prenatal Care: The percentage of deliveries that received a prenatal visit in the first trimester, on or before the enrollment start date or within 42 days of enrollment to PHC • Postpartum Care: The percentage of deliveries that had a postpartum visit on or between 7 and 84 days after delivery 	<ul style="list-style-type: none"> • 2020 – 2021 OB flow sheet, Progress Notes / Office Visitnotes including PCP, & labs • 2020 – 2021 notes from telephone visits, e-visits (i.e. secure text messaging or email, patient portal) and virtual check-ins • 2020 – 2021 Prenatal flow sheet/prenatal history/labs (OB Panel/TORCH antibody panel/Rubella antibodytest/ABO/Rh) • Name of patient’s OB/GYN provider/referrals to OB • 2020 – 2021 All prenatal and postpartum records (including records prior to PHC enrollment) • 2020 – 2021 Diagnosis of Pregnancy, documentation of delivery date, delivery medical record • 2020 – 2021 Ultrasound report(s) • Prenatal risk assessment form • Evidence of any of the following: Evidence member was not pregnant, evidence the pregnancy did not result in live birth, or evidence the patient did not deliver between October 8, 2020 and October 7, 2021

HEDIS Reporting Year 2022 (RY2022) Health Plan Accreditation (HPA) Hybrid Reporting Measures

HEDIS Measure	Measure Description	Medical Record Documentation Typically Requested
<p>WCC: Weight Assessment & Counseling for Nutrition & Physical Activity for Children & Adolescents</p>	<p>Percentage of members 3-17 years of age who had an outpatient visit with a PCP or OB/GYN and who had evidence of the following during the measurement year:</p> <ul style="list-style-type: none"> • BMI percentile documentation • Counseling for nutrition • Counseling for physical activity 	<ul style="list-style-type: none"> • 2021 Progress / Office Visit notes • 2021 Well Child check sheets • 2021 CHDP forms • 2021 ED /Inpatient/ Urgent Care records • 2021 notes from telephone visits, e-visits (i.e. secure textmessaging or email, patient portal) and virtual check-ins • Flowchart / Vital Signs Record (including WT, HT, & BMI percentile) • Age-growth chart • 2021 evidence of a diagnosis of pregnancy • Documentation of member receiving education material on physical activity and nutrition during face-to-face visit • Documentation of weight or obesity counseling • Documentation of anticipatory guidance specific to the child's physical activity and nutrition • Documentation of services rendered during a telephone visit, e-visit (i.e. secure textmessaging or email, patient portal) and virtual check-ins
