## **Mission:**

*To help our members, and the communities we serve, be healthy.*

## **Vision:**

*To be the most highly regarded managed care plan in California.*

## PHC is a County Organized Health Systems (COHS) Plan

### Non-Profit Public Plan

Low administrative Rate (less than 4 percent) allows for PHC to have a higher provider reimbursement rate and support community initiatives

### Local Control and Autonomy

A local governance that is sensitive and responsive to the area's healthcare needs

### Community Involvement

Advisory boards that participate in collective decision making regarding the direction of the plan.

1. Pay for outcomes, exceptional performance and improvement
2. Sizeable incentives
3. Actionable Measures
4. Feasible data collection
5. Collaboration with providers
6. Simplicity in the number of measures
7. Comprehensive measurement set
8. Align measures that are meaningful
9. Stable measures

# What is QIP?

The QIP provides financial incentives, data reporting, online tools and technical assistance

- eReports
- Partnership Quality Dashboard (PQD)

### Preventive Care Reports

These reports are supplemental to eReports and do not indicate measure compliance. The source of data is PHC's administrative data only. Dates of service that have been uploaded into eReports are not visible in these reports.

#### Immunization Dose Reports

The intent of the immunization dose reports is to enhance visibility of immunizations given, including for members not yet in the annual denominators for the Child Immunization Status and Immunizations for Adolescents measures. Data sources for this report include California Immunization Registry (CAIR) data, PHC's claims and encounter data, and immunization data received through PHC's Clinical Data Repository.

#### Well Care Reports

Like the Immunization reports, Well Care reports promote visibility of well visits completed for members who are not yet in the denominator for the Well Child Visits in the First 15 Months and the Child and Adolescent Well Care measures. The data source for these reports is PHC's claims and encounter data. Note that dates of service must be a minimum of 14 days apart to count towards numerator compliance.

#### Recommended Use

- Use reports to engage with members sooner, to help keep members on track with recommended immunization schedules and well care visits.
- Review service dates against measure requirements, to determine if members still require additional dates of service before aging out of the measure.
- If immunization dates of service are not captured on this report, please report them in CAIR. This will help to ensure data is captured administratively in eReports.

#### Important Notes

- eReports may not include recent dates of service due to claims lag (up to 3 months) and the timeframe by which PHC integrates CAIR data (typically a 4-6 week lag).
- Duplicate immunization dates, or dates of service close in time may be represented as separate immunizations on the report, depending on how records were entered in CAIR or services were billed. Confirm all service dates in eReports and against measure specification to ensure compliance.

### Frequently Asked Questions

Q. Members with letter "E" in their Client ID Number (CIN) show up with scientific report.

A. This is due to Excel's auto-formatting. To fix this, open a new workbook and import a text file.

- Select the Data tab from the ribbon
- Select 'From Text' under Get External Data menu
- Locate your report from the folder it was downloaded to. Click Import.
- Use the Import Wizard to import the file
  - Step 1. Delimited data type (Next)
  - Step 2. Tab delimited check (Next)
  - Step 3. Highlight the column for CIN and change the column data format to Text (Finish, OK)

Q. Why are there more or less columns in the report for each vaccine-type than number of doses required for the series?

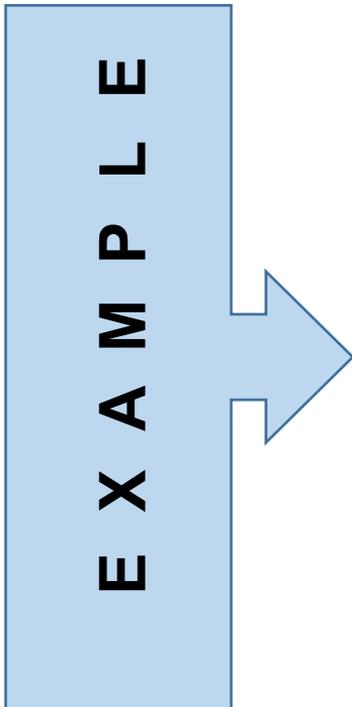

A. The number of immunization columns reflects the maximum number of dates of service for any given member in the report. If none of the members had any doses under a vaccine-type, there will be no placeholder columns for that vaccine. If a single member had many different dose dates under a series, that number of columns will display under the series. To confirm the number of required doses in a series refer to the QIP measure specifications document for Childhood Immunization Status and Immunizations for Adolescents measures.

Q. The columns showing dates of service are not in a standard date format when I export the dose report.

A. To fix this, highlight all columns in the exported report that should show dates of service. On the Excel ribbon, change the format from General to Short Date.

# Continuous Enrollment

- Defined as member assignment to the **Parent Organization** for at least **9** out of 12 months during MY2023

Month	Assigned: Pt. 1	Assigned: Pt. 2
January	Yes	Yes
February	Yes	Yes
March	No	No
April	Yes	No
May	No	No
June	No	Yes
July	Yes	Yes
August	Yes	No
September	Yes	Yes
October	Yes	Yes
November	Yes	Yes
December	Yes	Yes
Total/Denom Status	9 months, <b>YES</b>	8 months, <b>NO</b>

# Relative Improvement (RI)

- Available for existing/second year measures for each practice type
- A site's performance on a measure must meet the 50th percentile target in order to be eligible for RI points on the measure

## AND

- Have an RI score of 10% or higher, ending up thereby achieving performance equal to or exceeding between the 50th percentile and not exceeding the 75th percentile, to earn full points.

(Current year performance) – (previous year performance)

---

(100 – Previous year performance)

**Points Earned:** the number of points a site earns out of the total points distributed across the measurement set

**Member Months:** the sum of monthly enrollment counts over the course of the 12 month measurement period

- Example: If a site has 1,000 members each month, for the full measurement year the site has accumulated 12,000 member months

**PMPM (Per Member Per Month):** amount budgeted for incentive payment

- Core Measurement Set
- Individual site performance
- Single PMPM Amount
  - 2021: \$9.25/PMPM

$$\text{QIP Score \%} * \text{Annual MMs} * \text{PMPM} = \text{Incentive}$$

Example:

- Site earns **55%** of its QIP Core Measurement Set points (projected average for 2020)
- 1,000 members each month
  - **12,000** member months
- **\$9.25** PMPM

$$55\% * 12,000 * \$9.25 = \$61,050$$

# 2023 PCP QIP CORE MEASUREMENT SET

AN

# QIP Structure

Providers have the potential to earn a total of 100 points in 2 Core Measurement Set which consist of 4 measurement areas:

1) Clinical

I. Prevention & Screening AND Chronic Disease Management;

2) Non-Clinical

I. Appropriate Use of Resources;

II. Access and Operations;

III. Patient Experience.

Unit of Service, a.k.a. **BONUS Measures**

# 2023 Measurement Set - Programmatic Changes

## **New Clinical Measures**

- Add Diabetic Retinal Eye Exams
- Lower age range for Colorectal Cancer Screening from 50 to 75, to 45 to 75 years of age

## **New Non-Clinical Measure**

- Add PCP Office Visits: visits per member per year

## **Changes to Non-Clinical Measure**

- Sites with less than 500 assigned members will not be held accountable for Risk Adjusted Readmission and Ambulatory Care Sensitive Admissions measure

## **Removed Measures**

- Counseling for Physical Activity
- Counseling for Nutrition

## **Changes to Unit of Service Measures**

- Remove Initial Health Assessment
- Added 2<sup>nd</sup> payment option for ECDS - regular monthly file submissions
