

Blood Lead Testing Refusal

Patient/Child Name:	Patient Date of Birth:
Patient Medical Record Number:	
My child's doctor has told me why it is imp	ortant to test my child for lead and the risks of not testing.
My child's doctor has explained the facts be	elow from the California Department of Public Health:
Lead can harm a child's brain. MostChildren should be tested at age 1 ar	has lead poisoning is through a blood test. children who have lead poisoning do not look or act sick. ad age 2. need lead testing if they have never been tested before or the test
I still choose not to have my child to	ested for lead poisoning.
Reason(s):
