Billing Reminders:
Taxonomy Codes

September 2024

Attention Providers:

Taxonomy codes for billing providers are required for ALL claim submissions. Taxonomy codes for rendering providers are required when submitting rendering provider information on claims. Please engage with your clearing house to ensure claims are submitted claims with a valid taxonomy code.

Claims submitted without a valid taxonomy for either the billing or rendering provider will be rejected, resulting in NO PAYMENT. Please begin including taxonomy codes in your submissions immediately.

Taxonomy Codes: Claims billed electronically via 837P and 837I formats should follow instructions from Partnership's professional and institutional companion guides for billing taxonomy codes.
