

HEDIS® Hybrid Reporting Measures Requested Documentation

Measurement Year 2023 (MY2023) / Reporting Year 2024 (RY2024)

- **HEDIS® Hybrid Measure:** Data collected from both Administrative sources (claims, lab data, etc.) and abstracted from patient medical charts (paper and EMR).
- **Health Plan Accreditation (HPA) Measure:** Uses HEDIS data to effectively measure the Health Plan’s care and service performance, which determines the Health Plan’s Star Rating.
- **Medi-Cal Managed Care Accountability Set (MCAS):** Uses HEDIS data to effectively measure the Health Plan’s care and service performance.

The following measures are applicable to **both HPA and MCAS Reporting** **unless otherwise noted*.

| HEDIS Measure | Measure Description | Medical Record Documentation Typically Requested |
|--|---|---|
| LSC Lead Screening in Children | Percentage of children 2 years of age who had the following: <ul style="list-style-type: none"> • One or more capillary or venous lead blood test for lead poisoning by their second birthday <p><i>*MCAS only</i></p> | <ul style="list-style-type: none"> • Birth – 2023 Lab notes indicating the date of a lead venous or capillary blood test and the result • Birth – 2023 Progress / Office Visit notes (including sick visits) • Birth – 2023 Well Child check sheets • Child Health and Disability Prevention (CHDP) forms • Birth – 2023 ED / Inpatient / Urgent Care records • Birth – 2023 Notes from telephone visits, e-visits (i.e. secure text messaging or email, patient portal) and virtual check-ins • Evidence member was admitted to or used hospice services, or died in 2023 |
