Exact Sciences, maker of Cologuard, offers a bulk order program for Partnership provider organizations. If your orgnaization is interested in particpating in this program, please email Exact Sciences: *phc@exactsciences.com*

How It Works

Cologuard Auto-Deploy Program Workflow

Partnership HealthPlan identifies members who are eligible to screen and provides list to provider group.

Patient **Communication** sent by Exact Sciences notifies patient a Cologuard kit has been ordered for them and will be arriving shortly.

Cologuard kit ships to patient's home.

Patient returns Cologuard kit through UPS.

Results shared with ordering provider.

*Optional: If PCP is not the prescriber, Exact Sciences Laboratories can fax a copy of the **Result** to patient's PCP, if PCP fax number is included in Patient Eligibility File.*

Provider group reviews the list; populates the **Patient Eligibility File** and identifies its **Prescriber(s)**. Each Prescriber signs a **Multi Patient Order Requisition Form** which is sent with the finalized **Patient Eligibility File** to Exact Sciences via secure email.

Alternatively, a Designee can certify they are facilitating orders for the PCPs by signing a Cologuard Care Gap Certification Form that is returned with the Patient Eligibility File via secure email. In this scenario, the PCPs are the ordering providers.

Cologuard order is placed for eligible patients.

Cologuard Patient Navigation Program begins to support patient kit completion.

Exact Sciences processes Cologuard kit.

EXACT SCIENCES

Notes:
- PHC and Exact Sciences will determine multiple deadlines by which provider groups/clinics can submit their program orders. Exact Sciences will process all orders received by each deadline together.
- Each group's/clinic's order will have a separate program ID for tracking purposes.
- Estimated time from submission deadline to kit shipment is 4-6 weeks, assuming the patient notification letter and eligibility file are finalized.

Member Gap Lists

The PCP QIP colorectal cancer screening member gap lists are located in eReports. If you do not have an account set up in eReports, please contact your organizational eAdmin. For help identifying your eAdmin information, please contact qip@partnershiphp.org for assistance.

For instructions on how to download the member gap list (QIP Measure Report), please visit the PCP QIP eReport Webinar training page. Additional QIP trainings are available on the Improvement Academy Website: https://www.partnershiphp.org/Providers/Quality/Pages/PIAcademyLandingPage.aspx
