## Introduction

The Partnership Quality Dashboard (PQD) is a Tableau dashboard that is integrated into eReports and designed to visualize Primary Care Provider Quality Incentive Program (PCP QIP) data. PQD dashboards are designed to inform, prioritize, and evaluate quality improvement efforts. Dashboards and performance metrics built into the PQD provide the ability to track and trend QIP data. Performance data in PQD can be rolled up, in executive summary views and drilled-down to the patient demographic level. We hope you find the PQD actionable, informative, and supportive in pursuit of your QI goals. If you have any questions or feedback, please contact the PCP QIP Team.

## Log In

Log in to PQD by clicking the PQD link in eReports. This link is located on the menu bar on the left side of your screen:

## Data Refresh Schedule

PQD measurement year data will update monthly on the 10<sup>th</sup> of each month. Occasionally there may be delays to the monthly PQD refresh. The QIP Team will communicate timely updates to the provider network about the expected date of refresh.

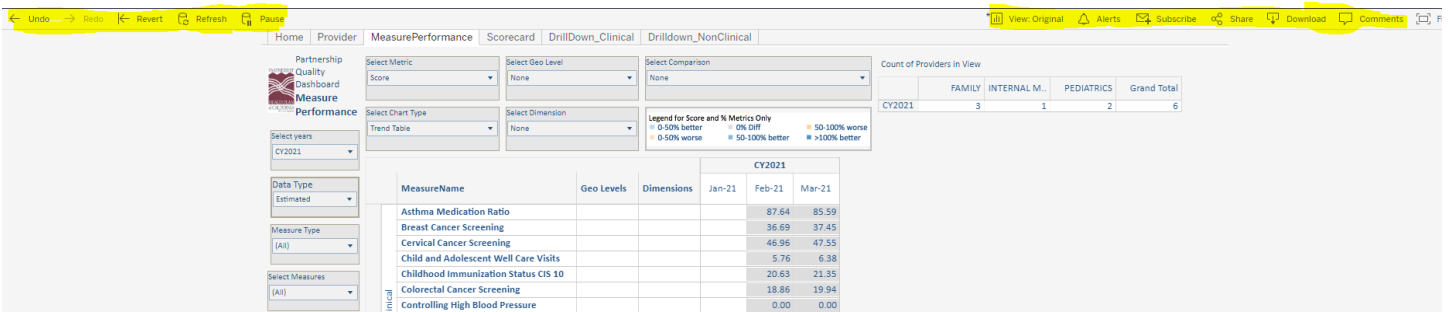

## Compatible Web Browsers

The PQD functions in these browsers:

- Chrome on Windows, Mac, and Android 4.4 or later
- Apple Safari on Mac and iOS 8.x or later
- Internet Explorer 11 or newer
- Mozilla Firefox 3.x or later on Windows and Mac

## General Navigation Tips

The Tableau menu bar offers users the ability to interact with the data in a variety of ways.

- Click Undo if you want to undo a single previous action, such as selecting a filter.
- Click Revert to clear all filters and revert back to the starting/default point.
- Refresh Pause These two buttons are not applicable in navigating the dashboard and can be ignored.
- If you have a preferred view with filters applied, use View: Original and name and save your view. You can select this from your list of views without having to re-apply filters next time you visit PQD.
- Hovering over certain data points in any dashboard will display a pop-up tool tip displaying more detailed information about the data.

## Downloading Instructions

Tableau offers several formats to export visualizations and supporting data from PQD.

- Use the download Download button from the Tableau menu bar. Select a format option:

If the option is grayed-out, this format is not available for this dashboard.

- Data vs. Crosstab format. Both options export to Excel or CSV; however, the Crosstab format is the export of the data in the table view only whereas the Data format contains full data with all underlying filter and parameter options. PQD has multiple dashboards built into each view, so upon download you will need to select which sheet you need.

If you actively select the header of the chart you want underlying data for, before clicking download, the sheet will be selected for you.

The screenshot shows a Tableau dashboard interface with various filters on the left and a data table in the center. A 'Download Crosstab' dialog box is overlaid on the table. The dialog has a title bar with a close button. Below the title, it says 'Select a sheet from this dashboard'. There are three icons representing different sheets, each with a bar chart icon. The middle icon is highlighted with a checkmark. Below these icons, there are three labels: 'MeasurePerf...', 'MeasurePerf...', and 'MeasurePerf...'. Underneath, there is a 'Select Format' section with two radio buttons: 'Excel' (which is selected) and 'CSV'. At the bottom right of the dialog is a blue 'Download' button. In the background, a hand cursor is pointing to the 'Asthma Medication Rate' header in the table.

- Download PDF or Power Point

The screenshot shows a 'Download PDF' dialog box. It has a title bar with a close button. Below the title, there is an 'Include' section with a dropdown menu. The dropdown is open, showing three options: 'This View', 'Specific sheets from this dashboard', and 'Specific sheets from this workbook'. Below the dropdown, there are two more dropdowns: 'Paper Size' (set to Letter) and 'Orientation' (set to Portrait). At the bottom of the dialog is a blue 'Download' button.

Download PDF or Power Point is a great way to download multiple dashboard views at once into a single document.

Use the option “Specific sheets from this workbook” and select all or specific dashboards to export.

You will want to do this after you have populated the dashboard with your preferred filters.

- Downloading the Tableau workbook is not available. Please contact the QIP team with any questions.

## Contact Us

For technical assistance or questions about the PQD, please contact the QIP team at [QIP@partnershiphp.org](mailto:QIP@partnershiphp.org)

# PQD Dashboards

## Home Dashboard

The Home Dashboard summarizes QIP performance at the parent organization (PO) level. This dashboard provides a summary of performance across of all primary care sites in the parent organization that are participating the PCP QIP. Individual site performance is broken out in Provider Score.

1

**Status:** Estimated or Final. If the current measurement year is selected, status will be estimated until QIP payment is finalized after the year end. Data displayed is not a guarantee of payment.

**Refresh Date:** The date of the most recent QIP measurement month captured.

**Members:** This is the total assigned monthly snapshot of PHC membership for your parent organization. Does not include Medi-Medi or dual-insured members.

**Claims Timeliness:** The percentage of total submitted claims during the year that are received within 90 days of the service date. Hover over the claims timeliness graphic to display a status legend:

**Payout Status:** This chart displays dollars currently earned as a proportion of the total available QIP payment if full points are earned, rolled up at the parent organization level. Hovering on the chart, a tool tip chart pops up showing the individual site dollars earned/remaining distribution.

You have earned 20.04% of your possible points. The Planwide Average to date is 24.65% giving you an Overall Rank of 71 out of 113 parent organizations. Click "Top 20" or "Bottom 20" to view unblinded PO performance.

This chart shows your parent organization's weighted relative rank in performance against other parent organizations in the PCP QIP network.

Click the **Top and Bottom 20** boxes to see an un-blinded list of the top and bottom performers.

QIP measure performance is sub-divided by **Clinical and Non-Clinical measures**. **Monitoring measures** that are not part of the QIP measure set for the selected year are also shown, with points displayed as N/A.

**PO Score** is aggregated for all provider sites in the organization as the sum of the numerator / sum of the denominator.

**NNT** = number needed to treat; or the number of members still needed in the numerator to meet the identified points percentage.

**PO Dollars earned and remaining dollars** are calculated by aggregating payout dollars at the site level. These dollars are estimated using QIP's payment calculation until data is marked as Final.

\* PQD is an online platform that integrates many sources of quality performance data to enable PCPs and PHC staff to prioritize, inform and evaluate quality improvement efforts.  
 \* QIP data is updated monthly on the 10th in PQD.

				3/25/2019	1/2/2020	283
				6/7/2019	1/2/2020	209
				12/18/2018	1/2/2020	380

Download icon highlighted in the ribbon bar.

- How to download "Crosstab"**
1. Click in pop-up window area
  2. Click on [Download] icon on ribbon bar
  3. Save/open file in "Downloads" folder

CIN  
9E##62G8

Download workaround for Member CIN Number. Members with letter "E" in their Client ID Number (CIN) show up with scientific notation formatting when downloading report.

This is due to auto-formatting in some versions of Excel. To resolve this, open a new workbook and import the download immunization report as a text file.

1. Select the Data tab from the ribbon
2. Select 'From Text' under Get External Data menu
3. Locate your report from the folder it was downloaded to. Click import.
4. Use the Import Wizard to import the file
  - Step 1. Delimited data type (Next)**
  - Step 2. Tab delimited check (Next)**
  - Step 3. Highlight the column for CIN and change the column data format to Text (Finish, OK)**

# Patient Satisfaction

### Patient Experience CG-CAHPS Score Comparison

CG CAHPS and Survey Option was Suspended in CY2020 - No Data Available

Measurement Year:

CAHPS Category:

Measurement Year:

In CY2019, your organization is eligible for Patient Experience-CG CAHPS. Adult CAHPS: 5 points, Child higher points score - Adult or Child - will be used for QIP points earned across all site(s) within your org

Click your PO name below to highlight your rank position/View historical performance in tooltip

#### Planwide Adult Access Score CY2019

If the organization participated in CG CAHPS or the QIP Survey Option you can view your performance by selecting the patient experience icon under the Home Page menu. If the organization was eligible for the GG CAHPS option, measure points will be displayed in red text. Select Adult or Child Access or Communication to view regional ranking.

If the organization participated in the survey option scores will also be displayed in the text field under the Home Page menu. Providers not eligible for CG CAHPS can still see un-blinded CAHPS performance ranking.

**Tip:** Click the menu icon again to close the menu box.

Click the Patient satisfaction icon again to close the report.

# Provider Dashboard

The Provider Summary dashboard summarizes performance by individual provider site. View QIP dollars earned and remaining at the measure level.

Click the menu icon and select a provider site to display the performance summary dashboard.

**Performance Summary**

Measures are divided into **Clinical, Non-Clinical, and Monitoring** measures.

**NNT** is number of patients needed to treat to hit the identified target

**QIP \$ Earned** and **Total Possible QIP \$** show current earnings vs. earnings if full points targets are met.

**Performance Summary**

This table provides a timely summary of a individual provider's performance, showing score, Full Points/Partial Points/**No Points**, payout and ranking for a given measure.

Measure Type	Measure Category	Measure	Score	Partial Points Target	Partial Points NNT	Full Points Target	Full Points NNT	Points Earned	Potential Points	QIP \$ Earned	Total Possible QIP \$	Remaining QIP \$	SelectRanking

\*\*\* Should include counseling for Nutrition and Physical Activity for Children/Adolescents.

Rev. 12/09/2020

Click the chart icon for the Measure Strategy timeline graphic.

View provider rank by measure in this view. Use the filter to view your measure performance rank against:

- Plan-wide performance
- Regional performance (PHC's Northern or Southern Region)
- PHC Sub-region (Northeast, Northwest, Southeast, Southwest)
- County
- Practice Type (Family, Internal, Pediatric)
- Peer Group (practice size and type)

Hover over the blue link in the ranking bar chart for a tool tip with more details.

Additional Provider Menu Features:

Hover over the **info icon** for a more detailed description of the dollars earned/dollars remaining definitions and the QIP payout calculation logic that is displayed in PQD.

Click the **document icon** for a hyperlink to the online version of the QIP Measure Specifications.

**Provider Summary Dashboard**  
This dashboard provides a snapshot of an individual provider.

**QIP S Earned:** The QIP S displayed in this column for the current measurement year is an estimate (see factors above) of how many PCP QIP Incentive dollars your site has earned thus far for this Measurement Year. For prior years, this is what was actually earned – not an estimate.

**Total Possible QIP S:** The QIP S displayed in this column for the current measurement year is an estimate (see factors above) of how many PCP QIP Incentive dollars your site could earn if it achieved full points for this Measurement Year. For prior years, this is the actual potential a provider could have earned – not an estimate.

**Remaining QIP S:** The QIP S displayed in this column is an estimate (see factors above) of how many PCP QIP Incentive dollars your site has remaining to earn if it achieved full points for this Measurement Year (i.e. "Total Possible QIP S" – "QIP S Earned"). For prior years, this is the different between the "Total Possible QIP S" and "QIP S Earned" – however, it is not an estimate.

## Measure Performance Dashboard

The measure performance dashboard displays measure performance trending for current or multiple measurement years, view performance in a table or trend chart, compare against regional performance, or stratify by member demographic variables.

**Tip:** Use **Revert** on the upper left menu bar to clear all filters selected in this view. Use **Undo** to clear a single click.

Select one or multiple measurement years.

County filter is only applicable if your organization spans multiple counties.

Performance is summarized for all sites in your organization unless a unique provider(s) is selected.

Member demographic filters.

The Ethnicity filter now features **all** expanded ethnicity options from the Membership Data.

Hover on Get Info for additional details.

The Ethnicity filter now features all expanded ethnicity options from the Membership Data.

Use filters on the left menu of this dashboard to refine the data. Use filters on the top to change parameters and stratify the data.

**Select Metric:** Default is measure score. Change this to view # of members in measure denominator (Members in Measure) or another calculated parameter.

**Select Geo-level:** If your organization crosses counties or region, or break out measure performance by individual provider site.

**Select Dimension:** break out measure performance by any of the filter selections including demographic data. Aid Category is based on membership Aid Code data received from DHCS.

**Select Chart Type:** change the view from table to trend or trend with clinical measure benchmarks.

**Select Comparison:** Score must be selected from Select Metric. Performance will be color coded against selected metric in the chart type – table view or shown against a trend chart in the Trend line chart view.

## Drill Down – Clinical

This dashboard appears blank until a specific site is selected from the Provider Name filter.

**Partnership HealthPlan of California**  
**Quality Dashboard**

**Member Drilldown Clinical**

Measurement Year: CY2020  
Refresh Date: Apr-20  
Provider Name: [Empty]  
Measure Name: Asthma Medication Ratio  
Numerator: 1,152  
Denominator: 1,632  
Score: 70.6

Member Name: carmen

Provider Name	Member Name	CIN	Elig Date	
			Mar-20	Apr-20
			●	●

Legend:  
● Compliant  
● Non-Compliant

Download member reports for a given month by clicking into the column header, and then selecting the Download option from the menu at the top of the dashboard.

Search any alphabetic string to pull up member status by name. Click X to clear the filter and see the full list of members.

Dots display the month(s) a member was in the measure denominator and if they were in compliant or not.

## Drill Down – Non-Clinical

Measure name headers operate as independent dashboards to provide detailed member reports for Non-clinical measures.

Important notes about this dashboard:

- Single click measure name to open and close dashboards.
- Close reports before viewing another measure.
- Provider name must first be selected to display reports.

LandingPage\_Internal Home Provider MeasurePerformance Scorecard DrillDown\_Clinical Drilldown\_NonClinical

 **Partnership HealthPlan of California**  
**Quality Dashboard**

**[Member Drilldown Non-clinical]**

**How to get started:**  
1. Click on the measure name (red box) THEN, Click one or more Provider Name(s) from the Provider name dropdown.  
2. Risk Adjusted Readmission (ONLY). Settings for Select View (Provider Summary (default setting)) and Provider Name filters to view:  
a. Observed/Expected Ratio: Provider Summary AND select one or more Provider Name(s) b. Member Drilldown AND Select one or more Provider Name(s).  
3. To view another measure drilldown: Re-click the measure name (blue box) OR the Revert button upper left corner AND return to step 1 or 2 above.

<b>Avoidable ED Visits</b>	Ambulatory Care Sensitive Admissions	Risk Adjusted Readmissions	Office Visits (Monitoring)
----------------------------	--------------------------------------	----------------------------	----------------------------

Arrows indicate a report header is blue when open and red when closed.

## Risk Adjusted Readmissions (RAR)

The RAR report has two view options: summarized at the provider-level, or member-drilldown data.

### RAR - Provider Summary

- First select a Provider Name. This shows the Provider Summary view.

Avoidable ED Visits	Ambulatory Care Sensitive Admissions	Risk Adjusted Readmissions	Office Visits (Monitoring)			
Select View						
Provider Summary	Measurement Year CY2021	Provider Name	Search for CIN	Search for Member Name		
PCP Name	Index Hospital Stays	30-day Readmissions	Estimated_ Readmission_Risk	Observed_Readm_Rate	Expected_Readm_Rate	Observed/Expected Ratio
	6	2	0.52	0.333	0.087	3.846

- The provider summary view is selected here. This report shows important data points used for the measure calculation. Refer to the PCP QIP measure specifications document for more detailed information about the Risk Adjusted Readmissions data.
- Use Select View to switch to the Member Drilldown report. A provider name must be selected on the summary view before switching to member drilldown.

## RAR - Member Drilldown

Avoidable ED Visits
Ambulatory Care Sensitive Admissions
Risk Adjusted Readmissions
Office Visits (Monitoring)

Select View  
 Member Drilldown

Measurement Year  
 CY2021

Provider Name  
 (All)

Search for CIN

Search for Member Name

PCP Name	Admit Dt	CIN	Member Name	Age at Admit	Gender	Hospital Name	Discharge Dt	30-day Readmissions	Estimated_Risk	Readmission_Risk	Readm_Days	Length Of Stay
								1	0.12	Null	28	
								0	0.08	Null	17	
								1	0.17	Null	17	
								0	0.06	Null	10	
								1	0.09	Null	14	
								0	0.08	Null	11	
								0	0.12	Null	7	
								0	0.07	Null	29	
								0	0.06	Null	7	
								0	0.11	Null	13	
								0	0.11	Null	3	
								0	0.08	Null	1	
								1	0.09	Null	4	
								0	0.08	Null	5	

Column headers and filters for the RAR member drilldown are similar to other Non-Clinical member reports.

**30-day Readmissions:** 1 or 0 is an indicator to show if there are any readmissions within 30 days of this admission date.

**Estimated Readmission Risk:** Unique to the member and used in the Expected 30 day Readmission risk calculation. Applies risk-adjustment weighting.

**Readmission Days:** Days between the current admission and the Index admission date. This will be Null if the current admission is the first one.

30-day Readmissions	Estimated_Risk	Readmission_Risk	Readm_Days	Length Of Stay
1	0.12	Null	28	
0	0.08	Null	17	
1	0.17	Null	17

## FAQ

1. Q: My score in eReports does not match my score displayed in PQD.

A: eReports is refreshed bi-weekly and displays data that may have been recently refreshed in eReports after the monthly data capture for PQD. Data displayed in PQD is refreshed monthly on the 10<sup>th</sup>.

2. Q: What is the difference between eReports and PQD?

A: eReports is the tool you should continue to use to upload dates of service and displaying up-to-date performance rates for the current measurement year. PQD allows you to visualize your performance data, compare performance year to year and stratify your data by various metrics.

### **eReports answers questions like:**

- How am I doing, right now?
- Who is still due for a numerator compliant service, right now?
- What numerator compliant data needs to be uploaded, right now?
  - o **PQD answers the following questions:**
- How was I doing last month or in previous measurement years?
- What are my estimated points to date?
- How does my organization compare plan-wide or against specific peers?
- How are different demographic groups performing by measure?
- How am I performing on non-clinical measures?

### **Key Differences:**

	<b>eReports</b>	<b>PQD</b>
Real Time Data Monitoring	Yes	No
Historical Data Monitoring	No	Yes
Accepts Uploaded Data	Yes	No
Data Refresh Schedule	Bi-Weekly	Monthly
Target User(s)	QI Staff	QI Staff / Executive / Leadership Teams
