 - For the 2024 measurement year, the ECDS measure has changed and will no longer include the HEDIS Primary Source Verification (PSV) process. Instead, providers will be required to contract with DataLink - a qualified HEDIS data aggregator, to qualify for the 2024 incentive. MY2024 ECDS Requirements:
 - Signed agreement with DataLink by September 30, 2024 (Full Incentive \$2,000) or between October 1, 2024 – December 31, 2024 (Partial Incentive \$1,000)
 - DataLink receives successful HEDIS data abstraction from EMR by October 31, 2024 (additional Incentive \$3,000)
 - The ECDS measure is also included in the Perinatal QIP. If your Parent Organization participates in both the PCP and Perinatal QIP, your PO will only qualify for the ECDS incentive for one program
 - On September 4, 2024 the MY2024 ECDS Kickoff Webinar was held. During this webinar changes to the Electronic Clinical Data Systems (ECDS) measure were reviewed in detail with the QIP team, HEDIS team, Dr. Robert Moore and the DataLink team. It is crucial that your Quality staff **along with your Parent Organization's IT Admin** staff review the webinar recording and presentation, if you were not able to attend. The webinar recording and presentation have been posted to our website and can be found [HERE](#). Next steps:
