Email: QIP@partnershiphp.org (please allow two business days for a response) Fax: (707) 863-4316

How Can I Access eReports? Partnership Website

HEALTHPLAN of CALIFORNIA

What is eReports?

Gives you the ability to:

- Access a web-based portal 24 hours/7 days a week
- Track your clinical performance in real time
- Download patient reports for each of the clinical measures
- Upload supplemental data for your patients
- Access detailed specifications manual

eReports New User Access

New Providers

The QIP team will email your POs individual Secret Key (Skey) along with detailed registration instructions so the appointed eAdmin(s) can create their accounts. eAdmin access should be limited to 1-2 designated staff.

	1	
	Sign Up:	Password Requirements
		Please use the following rules to create your password:
	First Name:	Length should be atleast 8 characters long
	User Email:	At least 1 Upper case letter
	Preferred Username:	At least 1 numeric character
	Confirm Password:	 At least 1 special character like L(9,#,5,%, ^,8, *,(.)
	I am responsible for creating accounts for	Sample password: e.g Partner2012* this organization.
	🔄 I am responsible for managing permissions	of users for elleports, including granting and revoking access.)
	I am responsible for auditing user account	s periodically
ting Dravidara	1 am a primary point of contact for PHC on	line services
sting Providers	1 am the primary point of contact(s) for PH	C's elleports Team.

Please review your **My eAdmins** list to ensure the appropriate staff have access. Appointed staff with eAdmin access have the ability to manage existing accounts and create new ones.

eReports Audit

2025 Upload Best Practices

Practices to be Successful in PCP QIP

When populating your upload template(s), please ensure the following:

- Each upload template contains a maximum of 100 lines per submission.
- Double check your data entry against your EMR and eReports.
 - When uploading DOS for vaccines/well care visits, please ensure the DOS has NOT been captured via CAIR or claims. You can use the Preventive Care Dashboard or the eReports member details via the measure report in your verification for the specific member you are uploading for. There is up to a 14-day lag (most claims are processed within 30 days) with claims and a 4-6 weeks lag with CAIR. Sometimes a typo and a different DOS is submitted with uploads which can violate the 14-day rule and prohibits the member from being able to become a numerator compliant. If this happens, the member will remain in your denominator and you need to wait until the end of the year to see this change when we submit manual adjustments. There is no need to upload for a member if a claim or CAIR DOS was already submitted and can be seen in eReports.
- Upload only once for each DOS. For example, if you upload on Tuesday for multiple DOS for a member and you don't see your data or DOS change after the eReports refresh (allow 7 days), do not upload again. Reach out to the QIP inbox and one of us will assist you from there. There may be a specific reason why your upload did not take and we will be able to identify that reason for you.

Once the upload template is submitted, **eReports will provide you a message letting you know that your upload was successfully submitted.** We highly advise users to **take a screenshot of this display for documentation purposes** in case your upload does not reflect in the next couple of data refreshes or if you have questions about your upload after eReports refreshes.

Practices to be Successful in PCP QIP

Important Reminders for Vaccinations:

- Rotavirus vaccines Please verify the billed CPT code as there are two different codes based on the series given. Be sure
 to verify which vaccine series was given, either the 2-dose or 3-dose vaccine. If a 2 dose is being given, verify the patient has
 two DOS submitted or uploaded and the appropriate code was used. The same goes for the three dose.
- For each subset of vaccinations, there MUST be at least 14 days in between each vaccination. For example: If the first
 vaccination was given at 12/1, the next vaccination from any data source (claim or CAIR) to count towards the measure, would
 have to be given on 12/15 or later. A vaccination with a DOS of 12/14 wouldn't qualify since it violates the 14-day rule and the
 member would remain in your denominator.
- We highly recommend providers to review the CDC recommended child and adolescent immunization schedule prior to scheduling and administering vaccinations. Our vaccination measures closely follow these guidelines.

Practices to be Successful in PCP QIP

If possible, designate one or two people to thoroughly review each non-compliant member's records prior to uploading any data. We have noticed multiple users from the same organization are uploading duplicate DOS for vaccinations or well care visits or updating the wrong date. It is important for the providers to thoroughly review the member record prior and verify their upload templates prior to uploading any supplemental data via eReports. When these verification steps are missed, it can cause issues with the logic and create additional work towards researching and fixing.

Carefully review and follow the upload template instructions. Ensure the correct formatting is used when inputtin data onto the template. For examples: DOS must be formatted as MM/DD/YYYY and A1c values must be formatted as XX.X. If this required formatting is not used, your upload will most likely not be captured. If the template has multiple columns where data can be entered, please verify the placement of the inputted prior to submitting your upload template.

If a patient was provided a service prior to becoming a Partnership member or prior to being assigned to a **Parent Organization**, the upload option can be utilized to submit any supplemental data that was or cannot be administratively captured by Partnership. ***First, please review the member records in eReports.

Improvement Academy - Upcoming 2025 Trainings

Improving Measure Outcomes Webinar Series: February - April 2025

The *Improving Measure Outcomes Webinar Series* allows Quality Improvement teams to make knowledge actionable, improving quality service and clinical outcomes around specific measures of care.

Target Audience: Clinicians, practice managers, quality improvement teams, and staff who are responsible for participating and leading quality improvement efforts within their organization.

These learning sessions will cover Partnership's Primary Care Provider Quality Incentive Program measures. Content will focus on direct application on best practices including eliminating health disparities with examples from quality improvement teams who are doing the work.

Planned sessions include:

- February 12, 2025 (COMPLETED) Pediatric Preventative Care for Ages 0 30 Months
- February 26, 2025 Pediatric Preventative Care for Ages 3 17 years
- March 12, 2025 Chronic Disease and Colorectal Cancer Screening
- March 26, 2025 Perinatal Care and Chlamydia Screening
- April 9, 2025 Breast and Cervical Cancer Screenings
- April 23, 2025 Diabetes Control

*Sessions offered during the lunch hour and approximately 60 minutes in length. CME/CEs will be offered for live attendance.

Improvement Academy - Upcoming 2025 Trainings

The ABCs of Quality Improvement is an in-person training designed to teach you the basic principles of quality improvement:

- Introduction to Quality Improvement and the Model for Improvement
- Learn how to create an Aim Statement (project goal)
- · Learn how to use data to measure quality and drive improvement
- Tips for developing change ideas for improvement
- Testing changes via the Plan-Do-Study-Act cycle

Who Should Attend? This course is designed for clinicians, practice managers, quality improvement team members, and staff who are responsible for participating and leading quality improvement efforts within their organization.

Date: Tuesday, March 25, 2025
Time: 8:30 a.m. – 4:30 p.m.
Location: The McConnell Foundation
800 Shasta View Dr, Redding
Registration and light breakfast from 8:30 – 9 a.m.
Lunch will be provided.

Registration is FREE

*The AAFP has reviewed ABCs of Quality Improvement (QI) and deemed it acceptable for AAFP credit. Term of approval is from 11/07/2024 to 11/07/2025. Physicians should claim only the credit commensurate with the extent of their participation in the activity. This session ABCs of Quality Improvement (QI) is approved for 5.50 Live AAFP Prescribed credits. **Provider approved by the California Board of Registered Nursing, Provider Number CEP16728, for 5.50 contact hours.

Questions

If you have additional questions or would like a 1:1 overview of eReports, please contact our QIP Team at:

QIP@PartnershipHP.org

Q - In the member search, can you see where the member is assigned?

A - Yes, you are able to see which site the member is assigned to within your organization.

Q - Why aren't we able to upload supplemental data throughout the year?

A - Uploads are on a staggered schedule in attempt to collect as much administrative data possible until the end of the measurement year. Administrative data is a preferred data capture in measures which templates launch later in the year.

Q - Is there any way to move up the launch date of the chlamydia screening upload template? Many may come in through FPACT, and not under Partnership claims.

A - No, the screening must take place during the measurement year, so we prefer to capture the data administratively vs via an upload. No FPACT data will be used for the PCP QIP.

Q - For members who are incorrectly assigned to site(s), is there a way to do a bulk transfer to correct their assignment? Currently, we ask a patient to complete a provider change form and send these individual forms to Partnership.

A - Currently, we do not offer any bulk assignment. Our Member Services department does conduct call campaigns. These campaigns are restricted to 70 members per campaign and require approval from our Member Services team. If you are interested, please send an email to the QIP inbox.

Q - For the optional measure, "Reducing Healthcare Disparity", if we decide to opt into this optional measure but are not able to satisfy that measure before the end of the year. Will this negatively impact our overall QIP scores?

A - No, it will not affect your overall QIP scores. You will just not be eligible for incentive.

Q - If the provider offices attempt to complete these various required services, however we are either unable to make contact with the patient, decline the service, or inform us that they have a Primary Care Provider elsewhere. What options are available to the provider office in these cases?

A - The QIP team does partner with our Member Services department to conduct call campaigns. Member Services will research if there is other available contact information and contact the member regarding their assignment. These campaigns are restricted to 70 members per campaign and require approval from our Member Services team. If you are interested, please send an email to the QIP inbox. In the case of patient refusal/decline, we recommend you document this information within your EMR, however this is not an acceptable reason for the member to be removed from any denominators.

Q - Last year, our eReports threshold page showed the WCV and W15 measures as part of our measure set, however, we do not see pediatrics. If this happens again, who can I contact to get these measures removed?

A - (Correction) Measures are displayed based on member assignment. These measures would only display if you had pediatric members assigned to your site(s) who fall into your denominators. You would need to verify your member assignment via Partnership's online service portal.

Q - In regards to HPV, the CDC's recommendation is to start at the age of 9 years old. If HPV is given at age nine, would it count towards compliance?

A - Yes, if HPV is given at the age of nine then it would qualify towards the measure. HPV vaccines would need to be given on or between the 9th and 13th birthdays.

Q - Is there an upcoming ABCs of Quality scheduled for Fairfield?

A - Not at this time. Partnership held an ABCs of QI in Fairfield back in November 2024. We will offer another Fairfield training in the Fall/Winter of 2025.

Q - On the CIS10 preventive care reports, what does the "to be evaluated" urgency flag indicate? A - The member is turning 2 years old in eight to twelve months.

Q - Can you provide clear specifications for catch-up vaccines? It is slightly different from the regular schedule, and quite complex.

A - We recommend following the catch-up schedule as designed by ACIP/CDC. Please refer to: https://www.cdc.gov/vaccines/hcp/imz-schedules/child-adolescent-catch-up.html

The catch-up vaccination schedule is an important guide for an individual patient who is still in need of the vaccine(s). The number of required vaccines can change based on the particulars of the catch-up schedule. Unfortunately, the QIP <u>cannot</u> take this schedule into account. The QIP strictly follows the standard vaccination schedule by age: <u>https://www.cdc.gov/vaccines/hcp/imz-schedules/child-adolescent-age.html</u>
